

**Black Americans
have the worst
health outcomes in
life expectancy, infant mortality,
stroke, preterm births, low birth
weight, adolescent obesity, hypertension,
heart disease, cerebrovascular disease, lung &
breast & colon & pancreatic & prostate cancers, diabetes,
homicide, gun violence, HIV, asthma, sexual assault, elderly disability, multiple
comorbidities, adolescent sleep deprivation, dental health, delayed medical care, prescription receipt, childhood vaccination**

**This February let's
talk about health
disparities &
barriers to care.**

**Black Lives Matter
in Health Too!
Dudley Square**
